

Press Release: BACN launches new Membership Recruitment Drive

2015 saw the BACN membership grow as it rolled out its extensive range of additional member services and benefits. Highlights included the following:

- Most successful Annual Conference ever – 225 Nursing Delegates and sold out exhibition space
- Record number of sponsors for BACN activities
- The establishment of the new BACN Regional Network with a programme of over 30 CPD accredited events
- Highly successful involvement with the NMC Revalidation Pilot and the launch of the BACN Revalidation Road Show and Register

In addition, the BACN are playing a leading role, along with fellow key industry organisation, BCAM, in establishing the new industry regulator the 'Joint Council for Cosmetic Practitioners' – JCCP.

Through the year the BACN has been listening to current members, partners and sponsors as well as those who may join us in the future. Listening to the feedback, the BACN Board have discussed and made a number of changes to its joining criteria and membership categories.

Joining the BACN

As the aesthetic industry and the BACN has grown it has become apparent that there are many different types of nurses who have entered the world of aesthetics. We have therefore now opened up BACN membership to **ALL** NMC registered nurses, with the exception of those in the 'Learning Disability' category. This change will become effective as from 1/4/2016.

The BACN position is very clear that 'patient safety' is our paramount objective, all BACN members must hold current Professional Indemnity Insurance.

For further information on membership joining criteria and categories and to join the BACN please contact BACN HQ on info@bacn.org.uk or call 0117 9595 530.
