

AESTHETIC AWARDS 2017

PRESS RELEASE

Aesthetics Awards

HIGHLY COMMENDED 2017

The BACN had a great night at the Aesthetic Awards in London on 02/12/2017. Board member Anna Baker won the 'Institute Hyalual Award for Aesthetic Nurse Practitioner of the Year' and the BACN provided all 8 finalists in the category. Being a member of the BACN is now synonymous with being a nurse in aesthetics. One of the BACN North West Regional Leaders Emma Chan won the hotly contested 'AestheticSource Award for Best New Clinic, UK and Ireland'. The BACN was also the runner up in the 'PHI Clinic Award for Professional Initiative of the Year' with our 'NMC Revalidation Mentor Programme' for our members. The Award was won by ACE the group that publishes guidelines on complications in aesthetics - many of our leading members are part of this group including our past Chair Emma Davies. A great project which we all love and support. The BACN is also extremely proud of all members nominated at what was a fantastic night of awarding professionalism and dedication to aesthetics.

This celebration of aesthetics also came on the weekend that the BACN signed up its 700th member. The nurses are the biggest group of medical aesthetic practitioners and the BACN is here to support and represent you all. Many new programmes coming in 2018 for both our advanced practitioners and many of you who are just starting out'.
